TECHNICAL PROJECTS

Spotify Clone Web Application

A high-performance music streaming interface developed to master complex JavaScript logic and UI design.

- Implemented real-time audio playback control using the HTML5 Audio API.
- Designed a responsive UI with custom CSS that mirrors the official Spotify theme.
- Managed song state and playlist navigation using advanced JavaScript event handling.

YouTube Clone & Personal Portfolio

Two distinct projects focused on architecting scalable front-end layouts and personal branding.

- Utilized CSS Grid and Flexbox to build a multi-column YouTube dashboard.
- Integrated smooth scroll animations and dynamic form handling for the portfolio.
- Optimized assets for faster loading speeds and cross-browser compatibility.
